INFORMATION BULLETIN

August 31, 2026

PCRB Information Bulletin #043

To all members of the PCRB:

Refreshed Application Manager Now Available

PCRB's refreshed Application Manager experience is now available, providing users with a more modern, intuitive, and consistent way to access the applications they rely on.

The refresh features updated navigation and a streamlined design that more closely aligns with the PCRB website. While the experience has changed, your applications and access remain the same.

New Application Manager URL

Users should now access Application Manager at:

apps.pcrb.com/AppMgr

Please update any bookmarks or saved links with the new URL. The previous Application Manager URL will redirect users to the new location during the transition.

Organizations that maintain approved or whitelisted URLs should also share the new address with their IT or security teams and make any necessary updates.

Updated Application Manager guidance is available to help users become familiar with the refreshed experience.

We encourage members to begin using the new URL today and explore the updated Application Manager. If you need help, contact Central Support at centralsupport@pcrb.com.
